

## **Environmental Staff Scientist**

CRG Texas Environmental Services, a well established environmental consulting firm, is seeking an Environmental Staff Scientist who has 5-7 years of hands on practical experience to join our team of environmental consultants. This position requires a dedicated professional engaged in delivering consistent and reliable results and effectively communicating with peers, superiors, clients, and regulators, a highly motivated, goal-oriented individual who will be responsible for providing management of projects and client accounts, oversight and review of technical documentation, and mentoring and supervision of staff.

### **Responsibilities:**

- Maintain long-term strategic client relationships
- Effectively manage the preparation of workplans and cost proposals and project deliverables
- Identify and utilize available company resources to effectively support client needs
- Remain current with EPA, TCEQ, and RRCTX regulatory agency programs
- Provide mid-level staff technical support
- Possess experience performing and supervising environmental projects to include: soil and groundwater assessments and remediation, non-hazardous and hazardous waste management, construction management and supervision
- Some overnight travel and after hours and weekend support on short notice may be required

### **Required Skills:**

- Excellent verbal and written communication skills
- Strong analytical skills
- Time and multi-task management skills, resulting in the ability to manage multiple projects, and the ability to prioritize time and resources accordingly
- Demonstrated knowledge and understanding of TCEQ rules and regulations
- Proficient with MS Office (Word, Excel, PowerPoint, Outlook)
- Flexible work schedule to ensure project timelines are completed on schedule and within budget
- Ability to conduct fieldwork for long hours, in sometimes inclement weather conditions, including walking at least 3-5 miles of rugged terrain at remote locations, and be able to lift 25-30 pounds on a regular basis for field work assignments

### **Required Experience:**

- Bachelor's degree in Environmental Science, Geology, or other related Earth Science field
- 5-7 years' experience in a leadership role in environmental consulting
- Current OSHA 40hr/8hr HAZWOPER training preferred.

### **Preferred Experience:**

- Corrective Action Project Manager (CAPM) certification
- Experience with TCEQ LPST Program

### **Benefits:**

- We offer competitive salaries, most major holidays, personal time off.
- Medical, life, dental, and vision insurance benefits.
- CRG Texas is an equal opportunity employer.

CRG Texas Environmental Services, Inc is an equal opportunity employer. Interested candidates should submit along with the resume a cover letter.
